Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Allowable Subject Matter

Claims 5,6,9 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 7,8 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 112

Claims 7,8,10,16-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is no proper antecedent basis for claim 7, line 1 'said...plates' and claim 17, line 26 'said ...bewareing..holes'. How can claim 10 claim a hammermill when the preamble is drawn solely to a bearing mount? Claim 16 is confusing and should be rewritten. How can claim 18 depend on claim 19?

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4,10-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Brewer. Brewer discloses the heart of applicants' invention which is to prevent

damage from an overload in a shredder mill by using shear pins outside of the shredder interior; note particularly figure 1, elements 81-84. Once this basic concept was known, the exact location of this type of shear coupling becomes an obvious design choice only i.e. placement of these elements below the bearing mount would have been obvious. Thus, in order to protect a shredder from interior damage, it would have been obvious for one of ordinary skill in the art to modify Brewer by placing elements 81-85 below the bearing mount since such placement would have been an obvious design choice only once the basic concept was known. The remaining limitations would then have been obvious design choices only as they solve no stated problems.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark Rosenbaum whose telephone number is 703-308-1788. The examiner can normally be reached on Monday-Friday.
